Testimonials

"We are grateful to Dave for helping Catholic Charities to identify significant cost savings in the areas of energy and technology across our agency."

**Marek K. Kukulka, CFO,
Catholic Charities – Archdiocese of Hartford**

"Through Dave's efforts, we were able to secure a 53% savings for our telecom while, at the same time, improving the response time and the reliability of the services. Not only did I gain a respected partner in hiring Dave, but I also gained a friend."

Rob Simon, Vice President, Dichello Distributors

"The most important value that Dave has brought has been his commitment to follow through and manage the often cumbersome, fine details of the project. I would happily recommend Dave for any future projects."

Gerry Barker, President, Barker Specialty Company
